PAINTERS' DUSTERS

TO THE TRADE.

In presenting this book to the trade, we feel confident of meeting with a long desired want.

Contrary to our former usage of selling the book, we have concluded to furnish this edition free of charge, and thus enable the consumer to make a suitable selection.

The designs therein illustrate the complete assortment of our Transfer Carriage Ornaments, which have met with such universal favor, as to render them indispensable to every carriage-maker and painter.

To contradict the false representations made by certain parties, we state that *Mr. Chas. Palm*, the originator of Transfer Carriage Ornaments, is connected with our firm *only*, and still furnishes most of the designs.

The parties above alluded to, not only take advantage of similarity of name, but copy as near as possible our designs, catalogues, and even our advertisements, as can be seen in the Carriage Journals. Thus they try to mislead the public, and venture to impose upon it their inferior imitations.

Finally we mention that our goods can be had through all the leading Carriage Material, and Paint and Oil houses throughout the States and Canada.

Hoping our endeavors will be fully appreciated, we request you to carefully preserve this book, and remain,

Yours very respectfully,

PALM & FECHTELER.

Facts of Interest to Carriage-Builders.

THE HUB PUBLISHING CO. OF NEW-YORK desire to serve the interests of the Carriage Trade in every manner within their power. They beg to call the attention of readers to the following books, pamphlets, etc., already published by them, and to such work as they are prepared to execute to order.

1. A Monthly Magazine for Carriage Builders.

"The Hub."—Subscription price for Vol. XXIII, beginning April 1, 1881, \$3.00. Each Volume contains about 600 pages, 150 Carriage Designs, and illustrated departments for the body-maker, smith, painter, and trimmer.

2. Bound Volumes, 1871-1881.

We endeavor to make each Volume of *The Hub* worthy of preservation as a standard book of reference, and a limited number of the following, handsomely bound in cloth, are now on sale: Vols. XIII and XIV, \$5.00 each, post-paid; Vols. XV to XXII, \$4.00 each.

3. Gardner's "Lessons in Lettering."

This attractive Volume, edited by Franklin B. Gardner, size 14x12 inches, 32 pages, paper cover, forms the first of a series of "Practical Handbooks," which we propose to issue as rapidly as the necessary material can be gathered. It opens with an introductory by Mr. F. B. Gardner, six pages, giving a technical description of the styles of lettering known as "Roman," "Full Block," "Half Block," "Outline," "Italian Block," and "Italic and Back Slope." He then addresses the wagon-painters, and gives full instructions regarding the following subjects: "Balancing Letters," "Method of Shading Letters," "Glazing," "Making the Cast-shadow," "Tools used by the Letterer," "The Paints used for Lettering," "Gilding," "Gold-size," "Palette-cups," "Lettering on Glass," "Prices charged in New-York for Lettering," etc.; etc.; then follow 24 pages completely filled with well-selected sample alphabets, including 80 varieties of lettering, mostly represented by capitals and lower-case letters and numerals, giving a grand aggregate of 2,204 letters and numerals. Price, 50¢, post-paid.

4. Gardner's "Studies in Scrolling."

This is a more elaborate book than the preceding, and contains full practical directions for designing and painting scrolls, in relief and flat, scroll-ends and corners, belts and borders, stenciling, and carriage striping; accompanied by upwards of 200 illustrations of specimens of the different kinds of work named, including many that are elaborate and expensive.

This is the only published work on carriage, wagon, and car scrolling, and it has been our aim and endeavor to make this a complete and exhaustive treatise on the subject, and to present it in an attractive manner, and to make the price so low that it shall be within the means of the humblest mechanic who desires to inform himself on the details of scrolling and striping. Price, \$1.00, post-paid.

5. "Draft-book of Centennial Carriages."

This Draft-book, giving a full report of the Centennial Exhibition, has both present and historical value, containing about 150 drawings of the most noteworthy Carriages exhibited by the leading builders in the United States, Canada, France, etc., accompanied by sectional drawings and full descriptions; printed on tinted paper and elegantly bound in cloth. Price, \$2.00, post-paid.

6. "Book of 530 Carriage Drafts."

Price of third edition, \$1.50, post-paid. Contains 530 designs of Buggies, Phaetons, Heavy Carriages, Business Wagons, Hearses, and Sleighs, drawn in half-inch scale. Indispensable in the Draft-room and Repository.

7. "The Hub Carriage Chart No. 5."

This Chart is particularly adapted to the needs of carriage and wagon makers outside of the larger cities; containing twenty-six designs, covering a large variety of the most popular Pleasure Vehicles, all light work, together with specimens of those Business Wagons and Sleighs most generally in use.

It measures 34 inches wide and 24 inches high; is handsomely printed on card-board, with gold border; and with a center-piece, 8½x5 inches (outlined with gold), in which the name and address of the carriage or wagon builder can be inserted.

This is unquestionably the finest and most complete Chart that we have ever published, and well merits a frame and a prominent position in all carriage offices and repositories, where it will be sure to attract the attention of buyers. It contains 26 wood-engravings of Buggies, Phaetons, Business Wagons, and Sleighs, perspective and side-views, all drawn in the scale of one-half inch to the foot.

Price, single copy, mailed on roll and postage prepaid, 50 cents.

8. "Official Carriage Guarantee Supplement."

An Illustrated Supplement, giving the "Official Carriage Guarantee," adopted by the "Carriage Builders' National Association" on Nov. 20, 1873, and still in force; printed in two colors, and stamped with the official seal of the Association; suitable for framing. Price, 50 cents each, postage included. Every carriage-builder should possess one, and display it prominently in his office.

9. Carriage Electrotypes for Advertising.

We have a large assortment of these, the prices varying with the size: one-quarter inch scale, 75¢ to \$1.25 each; one-half inch (same scale as usual *Hub* drafts), from \$1.50 to \$3.00. Liberal discounts made on large orders intended for illustrated catalogues, price-lists, etc. Send for samples and prices.

10. Wood-cuts of Carriages, Etc.

We have special facilities for supplying photo- and wood-engravings of carriages, and other mechanical drawings; and upon receipt of sketches showing the size and elaborateness of the work desired, we shall be happy to furnish estimates for drawing, engraving, and electrotyping.

11. Job Printing Department.

We are prepared to print to order all varieties of Carriage Catalogues, Circulars, Price-lists, etc., with or without illustrations; and our collection of over 2,500 Carriage Engravings and Electrotypes is placed at the service of customers giving orders of this character. Wood-cuts of carriages, or other Mechanical Drawings will be made to order. Send for prices.

Manuf'rs of Fine Coach Varnishes and Japans,

ALSO SUPERIOR COACH-PAINTERS' COLORS, GROUND IN GOLD SIZE JAPAN.

Special attention is directed to the STAR IVORY BLACK, of which we are the *sole* manufacturers. The "Star" Black is ground in Gold Size Japan, to the last degree of fineness, and, as now prepared, embodies the following requisites of a first-class black:

FIRST.—Increased opacity, or covering properties.

SECOND.—Great intensity of color.

THIRD.—That it dries well and thoroughly.

FOURTH.—That it mixes with Raw Linseed Oil or Spirits of Turpentine without curdling.

The different grades are branded as follows: { The best, ★★ ★ Superior Ivory Drop Black.
Second grade, ★★ The Star Ivory Drop Black.
Third grade, ★ The Star Ivory Drop Black.

SPECIALTIES:

WEARING BODY VARNISH.—The most durable Varnish now in use—superior to the English.

PRIMING OIL.—Superior to and rapidly taking the place of white lead, and all other priming substances.

CORALLINE FILLING.—This article has long ago proved to be superior to any other rough-stuff yet discovered, and is the general favorite in good shops from Maine to Texas.

COACH COLORS IN JAPAN.—Ground strictly pure and of great fineness, and superior in body to any in the market.

A full line of Palm & Fechteler's Transfer Ornaments in stock.

E. CLINTON & CO.,

MANUFACTURERS

& IMPORTERS OF

An Award decreed for the following reasons:

"Superior Quality and Fitness, they Excel in Every Line of Brushes."

BRUSHES,

931 and 933 MARKET ST.,

PHILADELPHIA.

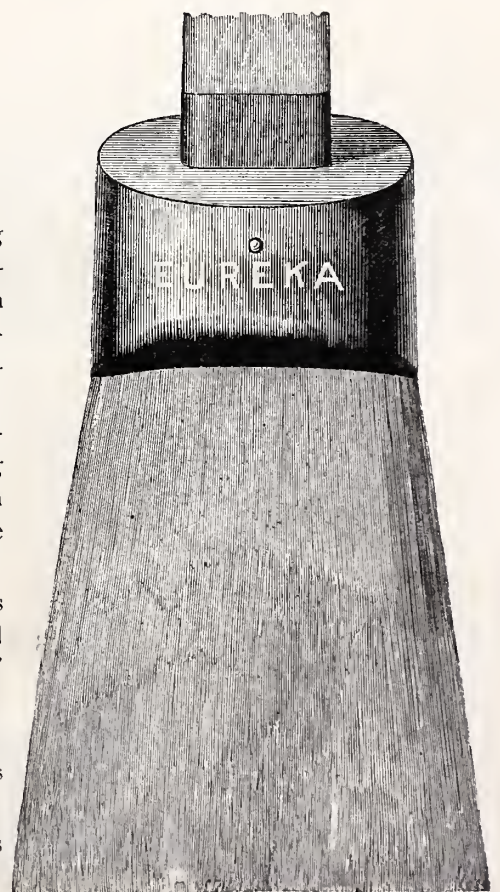

Your especial attention is invited to the following celebrated Brands of *Varnish Brushes*, which are especially adapted to carriage painting, viz: Eureka Coach and Car Extra Extra Tapered, and Standard. Their superiority over all others consists in their elasticity and volume, also in being chisel-pointed without grinding, thereby leaving all the flag on the bristles, which enables the workman to use them immediately without being previously worn down. The Coach and Eureka varnish brushes being fan-shaped, and having great volume makes them most desirable for body or panel work.

Attention is also invited to our Flowing Brushes made of Bristle, Camel-hair, Fitch-hair, Bear-hair, and Badger-hair as being better adapted for carriage-painters' use than any now offered to the trade.

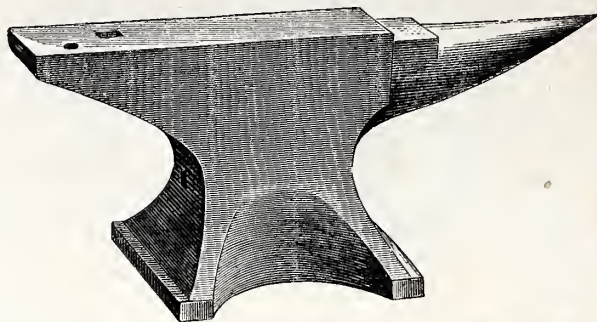

Our whole line of Varnish Brushes is complete, and cannot be excelled.—Ask your dealers for brushes having 'CLINTON' stamped on the handle of each brush.

 Price-list furnished on application and brushes sent by mail to any address.

*We wish to say to buyers and consumers of Paints and Colors that our **COACH COLORS**, (as well as other products,) have taken a leading position in this country, and in consequence of their real excellence are constantly increasing in popularity, our larger sales from year to year confirming this fact.*

We would also remind you that an important feature of this business (solely our own,) is in furnishing these Colors in large Collapsible Tubes, a convenience and an economy which, judging from the rapidly increasing sales, seems to be appreciated.

Respectfully,

Sherwin, Williams & Co.

THE LATEST!

THE BEST!
